DETAILED ACTION

Claim Objections

1. Claim 14 is objected to because of the following informalities: at line 15, "OF" should be --of-- i.e. not capitalized. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 28-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. Claim 28 recites the limitation "the lower filtration barrier" in line 15. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 13 and 36-38 are rejected under 35 U.S.C. 102(b) as being anticipated by McGinn #6,497,532. McGinn discloses a filtration barrier comprising support assembly and geotextile sheets such that the filtration barrier forms a non-negative compound slope or convex shape.

Allowable Subject Matter

7. Claims 1-12, 14-27, 31-35, and 39 are allowed.
8. Claims 28-30 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
